Emotional Alignment

How both of you feel, express, and process love.

Rohit aur Anjali dono ke emotional needs alag hain. Rohit thoda withdraw ho sakta hai jab Anjali zyada emotional support ki zarurat mehsoos karti hai. Anjali ki emotional depth unki sensitivity se aati hai, jabki Rohit thoda practical approach rakhta hai. Yeh mismatch dono ke beech misunderstandings ka sabab ban sakta hai.

Trust & Loyalty

What strengthens trust — and what quietly tests it.

Anjali ka manglik hona trust issues create kar sakta hai, jabki Rohit ki loyalty unki practical nature se aati hai. Agar dono apne insecurities ko samajh sakein, toh trust build karna asan hoga. Lekin, jab Anjali ko emotional support nahi milta, tab vo trust lose karne lagti hai. Yeh phase dono ke liye critical hai.

Conflict Patterns

How arguments begin, escalate, and resolve between you.

Jab bhi in dono ke beech jhagda hota hai, zyada tar yeh misunderstandings se shuru hota hai. Anjali apne emotions ko express karti hai, jabki Rohit unhe ignore karne ki koshish karta hai. Yeh escalation tab hoti hai jab dono apne viewpoints par stubborn hote hain. Ek practical de-escalation cue yeh hai ki dono ko ek dusre ki feelings ko sunna chahiye.

Why we say this → Based on Yoni aur Gana koot indicators.

Commitment Strength

Who commits faster, who hesitates, and why.

Rohit commitment mein thoda zyada invest karta hai, jabki Anjali emotional commitment ko samajhne mein time leti hai. Dono ke beech breakup-reconciliation ka pattern dekha gaya hai, jo kisi bhi relationship mein common hai. Yeh balance unki long-term efforts ko define karega.

Marriage Stability

Long-term potential measured with realism, not absolutes.

Is rishta ki marriage stability low hai, lekin agar dono actively milkar kaam karein, toh kuch improvement ho sakta hai. Family acceptance bhi ek challenge hai, aur dono ko apne differences ko manage karna hoga. Ek specific adjustment jo dono ko accept karni hogi vo hai communication style ko adjust karna. Kumbh Vivah zaroori hai.

Why we say this → *Based on total Ashtakoot score aur manglik imbalance.*

Future Direction

Where this relationship is heading over the next 2–3 years.

Aane wale 2-3 saalon mein, agar dono apne emotional needs par dhyan dein, toh relationship evolve ho sakta hai. Yeh bond maturity ki taraf ja sakta hai agar dono ek dusre ki zarurat ko samjhein. Ek quiet choice jo outcome ko decide karega vo hai joint daily prayers ka practice karna. Navagraha Shanti zaroori hai.

Practical Life Together

Money, family pressure, and lifestyle compatibility — in real life.

Practical life will demand active negotiation. Joint financial planning, household roles, and family-side expectations need explicit conversations long before they become resentments.

Manglik influence here suggests delaying major joint commitments — large loans, joint property, business ventures — until at least one full year after marriage. Let the bond settle first.
